

FOREST HILL  
Church of Christ

*Sunday,*

May 19, 2024

Announcements

**Be not hasty in  
thy spirit to be  
angry: for anger  
resteth in the  
bosom of fools.**

**Eccl. 7:9**

## Member Accountability (In-Person and Virtual)

Scan the QR code,

or text the word

# Condolences

*Heartfelt condolences to  
Sis. Andrea Taplin in the loss of  
her uncle,*

***George Gillum***

*of Spring , TX , who passed  
Sunday, May 12th*

# May is... Mental Health Awareness Month

***Each illness has its own symptoms. Common signs of mental illness in adults & adolescents can include the following:***

- Excessive worrying or fear
- Feeling excessively sad or low
- Confused thinking or problems concentrating and learning
- Extreme mood changes, including uncontrollable “highs” or feelings of euphoria
- Prolonged or strong feelings of irritability or anger
- Avoiding friends and social activities
- Difficulties understanding or relating to other people
- Changes in sleeping habits or feeling tired and low energy
- Changes in eating habits such as increased hunger or lack of appetite
- Difficulty perceiving reality (delusions or hallucinations, in which a person experiences and senses things that don't exist in objective reality)
- Inability to perceive changes in one's own feelings, behavior or personality (“lack of insight” or anosognosia)
- Overuse of substances like alcohol or drugs
- Multiple physical ailments without obvious causes (such as headaches, stomach aches, vague and ongoing “aches and pains”)
- Thinking about suicide
- Inability to carry out daily activities or handle daily problems and stress
- An intense fear of weight gain or concern with appearance

***Mental health conditions can also begin to develop in young children. Because they're still learning how to identify and talk about thoughts and emotions, their most obvious symptoms are behavioral. Symptoms in children may include the following:***

- Changes in school performance
- Excessive worry or anxiety, for instance fighting to avoid bed or school
- Hyperactive behavior
- Frequent nightmares
- Frequent disobedience or aggression
- Frequent temper tantrums
