Deuteronomy 6:5-7

⁵ Love the LORD your God with all your heart and with all your soul and with all your strength.

⁶ These commandments that I give you today are to be on your hearts.

⁷ Impress them on your children. Talk about them when you sit at home and when you walk along the road, when you lie down and when you get up.

What is Psoriasis?

Psoriasis is an immune-mediated disease (a disease with an unclear cause that is characterized by inflammation caused by dysfunction of the immune system) that causes inflammation in the body.

Common signs and symptoms of psoriasis include:

- *A patchy rash that varies widely in how it looks from person to person, ranging from spots of dandruff-like scaling to major eruptions over much of the body*
- *Rashes that vary in color, tending to be shades of purple with gray scale on brown or Black skin and pink or red with silver scale on white skin*
- *Small scaling spots (commonly seen in children)*
- *Dry, cracked skin that may bleed*
- *Itching, burning or soreness*

Treatment:

Psoriasis treatments aim to stop skin cells from growing so quickly and to remove scales. Options include creams and ointments (topical therapy), light therapy (phototherapy), and oral or injected medications.

Which treatments you use depends on how severe the psoriasis is and how responsive it has been to previous treatment and self-care measures. You might need to try different drugs or a combination of treatments before you find an approach that works. Even with successful treatment, usually the disease returns. The disease is incurable.

Reading Help for Children

Is your child at least 5 or 6 years old and struggling to read?

Have you been waiting and hoping that over time, they'll just get it?

Are you trusting the school to teach your child to read?

It's not your fault and it's not your child's fault.

And yes, there is something that you can do about it.
