Safety tips to keep in mind this holiday season:

Balloons

Children can choke or suffocate on deflated or broken balloons. Keep deflated balloons away from children younger than eight years old. Discard broken balloons immediately.

Small balls and other toys with small parts

For children younger than age three, avoid toys with small parts, which can cause choking.

Scooters and other riding toys

Riding toys, skateboards and in-line skates go fast, and falls could be deadly. Helmets and safety gear should be worn properly at all times, and they should be sized to fit.

Magnets

High-powered magnet sets are dangerous and should be kept away from children. Whether marketed for children or adults, building and play sets with small magnets should also be kept away from small children.
