Decorate Safely

Decorating is one of the best ways to get in a holiday mood, but emergency rooms see thousands of injuries involving holiday decorating every season.

When decorating follow these tips from the U.S. Consumer Product Safety Commission

- Keep potentially poisonous plants – mistletoe, holly berries, Jerusalem cherry, and amaryllis – away from children.
- If using an artificial tree, check that it is labeled “fire resistant.”
- If using a live tree, cut off about 2 inches of the trunk to expose fresh wood for better water absorption, remember to water it and remove it from your home when it is dry.
- Place your tree at least 3 feet away from fireplaces, radiators, and other heat sources, making certain not to block doorways.
- Avoid placing breakable ornaments or ones with small, detachable parts on lower tree branches where small children can reach them.
- Only use indoor lights indoors and outdoor lights outdoors and [choose the right ladder](#) for the task when hanging lights.
- Replace light sets that have broken or cracked sockets, frayed or bare wires, or loose connections
- Follow the package directions on the number of light sets that can be plugged into one socket.
- Never nail, tack or stress wiring when hanging lights, and keep plugs off the ground away from puddles and snow.
- Turn off all lights and decorations when you go to bed or leave the house.,
