## Healthy Ways to Start the New Year

*Brought to you by:  
FHCOC Care Team  
Ministry*

1. **Eat more whole foods.** One of the easiest and most sustainable ways to improve overall health is to eat more whole foods. Whole foods, including vegetables, fruits, nuts, seeds, whole grains, and fish, contain a plethora of nutrients that your body needs to function at an optimal level.
2. **Sit less and move more.** Whether it's due to having a sedentary job or simply being inactive, many people sit more than they should. Sitting too much can have negative effects on health.
3. **Cut back on sweetened beverages.** Cutting back on sweetened beverages is a smart idea considering that sugary drinks are linked to an increased risk of obesity, fatty liver, heart disease, insulin resistance, and cavities in both children and adults.
4. **Get more quality sleep.** Sleep is an essential part of overall health, and sleep deprivation can lead to serious consequences. For instance, lack of sleep may increase your risk of weight gain, heart disease, and depression.
5. **Find a physical activity that you enjoy.** Choose an activity based on enjoyment and whether it fits into your schedule.
