Church of Christ
IN FOREST HILL

The background of the image is a soft, out-of-focus sunset or sunrise sky, transitioning from a pale purple at the top to a warm orange and yellow near the horizon. In the foreground, the dark silhouettes of two hands are raised in a gesture of prayer or praise, with fingers slightly spread and palms facing upwards. The hands are positioned on the left side of the frame, with the right hand slightly higher than the left.

Alzheimer's & Brain Awareness

Alzheimer's is the most common cause of dementia, a general term for memory loss and other cognitive abilities serious enough to interfere with daily life.

Symptoms and signs of dementia:

Signs of dementia can vary greatly. Examples include problems with:

- Short-term memory.
- Keeping track of a purse or wallet.
- Paying bills.
- Planning and preparing meals.
- Remembering appointments.
- Traveling out of the neighborhood.

Causes:

Dementia is caused by damage to brain cells. This damage interferes with the ability of brain cells to communicate with each other. When brain cells cannot communicate normally, thinking, behavior, and feelings can be affected.
