## Autism Awareness and Acceptance

The recognition raises awareness about autism acceptance and promotes inclusion and connectedness for people with autism.

Autism spectrum disorder (ASD) is a developmental disability caused by differences in the brain. Some people with ASD have a known difference, such as a genetic condition. Other causes are not yet known.

Social communication and interaction skills can be challenging for people with ASD. Examples of social communication and social interaction characteristics related to ASD can include-

- Avoids or does not keep eye contact
- Does not respond to name by 9 months of age
- Does not show facial expressions like happy, sad, angry, and surprised by 9 months of age
- Does not play simple interactive games like pat-a-cake by 12 months of age
- Uses few or no gestures by 12 months of age (for example, does not wave goodbye)
- Does not share interests with others by 15 months of age (for example, shows you an object that they like)
- Does not point to show you something interesting by 18 months of age
- Does not notice when others are hurt or upset by 24 months of age
- Does not notice other children and join them in play by 36 months of age

Did you know?  
April is  
Autism  
Acceptance  
Month.
