know?  
February is  
American  
Heart  
Month.**

**Brought to you by:  
FHCOC Care Team  
Ministry**

**Take action to protect your heart by following these tips:**

***Stop Smoking. Any amount of smoking, even light or occasional smoking, damages your heart and blood vessels.***

- *Select a quit date and write yourself a contract that outlines your plan for quitting.*
- *Talk with your healthcare provider about programs and products that can help you quit.*
- *Join a support group. Many hospitals, workplaces, and community groups offer classes to help people quit smoking.*
- *Call 1-800-QUIT-NOW and visit [smokefree.gov](https://smokefree.gov) to get additional support.*

***Control Cholesterol Unhealthy levels of cholesterol can lead to high cholesterol, which increases the risk of developing heart disease.***

- *Try the Therapeutic Lifestyle Changes (TLC) Program which combines diet, physical activity, and weight management to help lower high blood cholesterol and improve heart health.*
- *Eat a heart-healthy diet that is low in saturated fats, as these can raise LDL cholesterol levels.*
- *Limit alcohol consumption. Drinking too much alcohol— more than two drinks a day for men or one drink a day for women—can raise your total cholesterol level.*
